Missoula

May 28.

Dear Family,

We rec'd

Marian's Invitation & Carrie
Do you realize that you
have only one more to
go through High School after
her - it doesn't seem
possible & if you are not
careful you soon won't
have any body but your
Billy Boy with you - but
I don't think any of them
will go far away - I am
glad Jimmie can be in
Shawwood next year - that
certainly will be nice
for you - we have a

~~Mount~~ Mountain
Just 2 Blocks East of
our Flat the sides of it
are just covered with
flowers - all colors of the
Rainbow are there. Dave
started out a while ago
& is trying to find
the End of it & bring
back the Pot of Gold - but
I imagine he would have
to go quite a ways so
he will only bring back
flowers this time. I rec'd
a letter from Betty the
other day & was glad
to hear she can get out
in the Garden some -
I am afraid she will
never get ~~of~~ over that knee
trouble she has.

She wrote like aunt Sarah
 had been sick I had not
 heard about it. I am afraid
 that Poor Old Lady is not
 going to stay with us
 very long. & if she dies
 Carry I want you to have
 her put on our Lot. but
 a Vacant space beside I ^{leave} I
 Dora & I were living in
 a flat with Marjory's Father in
 Law but he was so cranky
 & always talking about his
 Wife so mean that we had
 to move - but we are just
 a few doors away from
 him & have a Dandy little
 2 room flat. Dora Cooked
 Dinner today the first
 time since we left our
 Cabin in the hills &

4
hr four five - we are
on the 3^d floor & can
see all our town - we
have everything furnished
but our bedding & only pay
\$15.00 per month. from where
I am writing you can
see beside the mountain
Cherry & apple blossoms as
far as you want to look -
the snow in the hills
is just melting & all
the Rivers are Bank full
and have snow. the other day
there was a Carpenter layed
off from a large building
I am working on to take
his wife to the Hospital
& the poor fellow was
drown'd the same day
& hasn't been found yet

that certainly was hard
for his wife to Bear - the
waters are so swift that
he may never be found -
he lives on the River Bank
& put on a pair of Hip
Booth & was trying to
Catch Drift Logs - he fell
& the swift Current took him
in deep water & he is probably
covered with sand by now.
I know you ought not
hurry to answer our letters
but all the same, we would
very cheerfully read them, if you
would drop us a few lines -
Best wishes & love to all -

Tom & Dave.
